Angus cattle, the beautiful Sandhills, fellowship, great food, and drawings were highlights of this year's Nebraska Angus Tour. This was the seventh tour I've had the pleasure of being part of, and wow—breeders and supporters alike showed up, making me feel deeply appreciated and honored to lead the Nebraska Angus Association. The countless hours of planning, numerous phone calls and meetings, and attention to every fine detail for the tour, annual meeting, and banquet truly paid off this year! I want to sincerely thank all our wonderful sponsors for their generous donations that helped make this event phenomenal. Thanks also go to all the breeders for their time and hospitality during the tour, to the special interest stops for hosting us, and to everyone who attended. My goal for the Association is to continue growing our annual tour and to make it one of the best marketing tools for our members. After this year, it's clear that vision is well on track!

With the busiest time of year for the Association behind us, I finally have a little time to breathe—but my focus remains firmly on what lies ahead. Fall production and dispersion sales are on my radar, along with the royalty competition and the Nebraska Junior Angus Winter Show.

This fall and early winter, there will be several opportunities to purchase elite genetics from breeders during their dispersion and production sales. Please refer to this issue of the magazine, as it features advertisements highlighting these operations and their upcoming sales. With cattle futures looking promising, now is a great time to consider viewing cattle that could enhance your herd's performance.

In December, I will be traveling to Kearney to participate in the Nebraska Angus Association Royalty contest. The contest will be held in the Holiday Inn meeting room area, the same venue we've used in the past. It will begin at 10 AM and conclude around noon. The crowning will take place that evening at the Nebraska Junior Angus Association banquet, hosted at the Crowne Plaza.

Please encourage youth to participate, as this contest offers them a valuable chance to meet Angus breeders, engage in Angus events, and build their presence in the Angus community. Following the royalty competition, I will be attending the Nebraska Junior Angus Winter Show. Be sure to mark your calendar and come support our talented Angus youth at the winter show!

As the year winds down, I wish everyone a great fall and holiday season! If you have any questions, comments, or concerns please do not hesitate to reach out!

Sincerely,

Margo Lehn

PRESIDENT SPEAKS

By: Adam Sellman, NAA President

Dear Nebraska Angus Members and Friends,

Hello from western Nebraska, I want to take a moment to express my sincere gratitude for the opportunity to serve as your president this year. It is truly an honor to work alongside so many dedicated individuals who share a passion for the Angus breed and the future of our industry. I look forward to the continued success and growth of our association.

A sincere thank you to Adam Sawyer, who served as president this last year. Adam's leadership and commitment have been invaluable to the Nebraska Angus Association, and we all greatly appreciate his hard work and dedication.

The great success of the Angus breed and the enthusiasm for our members was evident by the success and attendance of the 2025 Nebraska Angus Tour. From the golf tournament to the final stop we were blessed with beautiful weather and great company. The tour really highlighted the value of Nebraska Angus cattle and the prominence that Nebraska Angus breeders carry. At this time, I would like to give a big thanks to the producers that displayed on the tour as well as the sponsors of the tour. We had wonderful sponsorship participation from many of our industry affiliates as well as many local businesses and cannot thank them all enough. Also, a big thanks to Margo for all her hard work and keeping us all on schedule.

Summer has come to an end and everyone is busy with harvest and weaning. We have been blessed this year in Nebraska with great weather and rain that has led to great crops and luscious pastures. It's fun to see cows and calves coming off pasture in the condition they are in this year.

It is a great time to be in the cattle business, just as the cattle

market seems to reach new heights it continues higher than ever believed. The calf market is on fire as the demand is exceeding the supply. It is great that the cow/calf producer is receiving a premium for his genetics. As registered Angus breeders we realize the value that quality genetics play in the equation.

The 2025 Angus Convention is just around the corner and I strongly encourage our members to attend. There are a number of great educational opportunities, access to industry information, and the opportunity to share information and ideas with Angus Breeders from across the nation. One of the most important parts of the National Convention is the annual meeting of the delegates. Our members should feel free to contact our elected delegates to make your opinions known as well as bring any issues you feel deserve attention to light. The national convention and the meeting of the delegates is an important part of strengthening the character of our national association and to make sure that what is best for the Angus Breed and its membership gets done.

As we move forward, I encourage you to stay involved, support one another, and continue sharing the story of Nebraska Angus. Whether you are a multi-generational breeder or just getting started, your voice and your experiences matter. Together, we will continue to build on the legacy of excellence that defines Nebraska Angus.

Sincerely,

Adam Sellman

AMERICAN ANGUS ASS. BOARD OF DIRECTORS

By: Danny Poss, AAA Board Member

Dear Fellow Nebraska Angus Breeders,

It was great to see so many enthusiastic Angus breeders on the North Central Nebraska Angus Tour. It was very evident that a tremendous amount of time and energy was put into the planning and preparation of the tour. I would like to thank all the committee members, the tour participants, and the hosts for another successful and energetic tour. With record breaking prices for feeder cattle, the registered and commercial Angus breeders have a lot to be happy about. I certainly appreciate having the opportunity to visit with great people and enjoy conversations around an exciting time in our industry.

As we get ready for the Angus Convention and the 142nd Convention of Delegates, I hope every Association member has been engaged with the discussions we've been having over the last few months.

If you haven't already, I would recommend taking the opportunity to read about some of the topics we're planning to discuss. You can find those resources using the QR code included in this article.

Earlier this year, the Association surveyed the membership and the Board of Directors recently had a chance to look through the results. It has really been interesting to me to see some of the results including what the Association should prioritize. Marketing assistance topped the list with a close second being research. Rounding out the top five were Certified Angus Beef promotion, producer education and genetic selection tools. There were many more insights and you can watch a video about the results in the Member Center on the Association website. These results will help guide me and my fellow board members by understanding what you as members feel is most important.

An additional tool that will guide the Association over the coming years is the Long Range Objectives that we approved at our September board meeting.

Those objectives include:

- Drive breed improvement
- Enhance membership experience and success
- Foster the profitability of the commercial cattleman
- Serve as a trusted industry resource
- Grow consumer trust and loyalty

While there are many more strategies underneath each of those, I like that we've prioritized what will keep our Association and the Angus breed at the top of the beef industry.

As I mentioned, research remains a top priority for members. If you are interested in knowing more about the research projects the Association and AGI are working on, there's a new video that outlines the projects. We've also included a methane efficiency page that describes the research

project in detail. You can find both at: www.angus.org/agi/research

One topic that continues through many of the discussions we have as a board is the importance of phenotypic data collection. We see continued commitment by you to collect and support our database. That's what makes our tools so valuable. I'm happy to report there are five Nebraska breeders who received Data Driven Herd recognition. A program launched this summer, I'd invite you to start your journey to recognition by enrolling in Inventory Reporting which runs Nov. 1 – Jan. 15.

Please feel free to contact me. I look forward to hearing from you!

Scan the QR code to find the links and additional information.

Warm regards,
Danny Poss

By: Addison Crouse, NJAA President

Hello Angus Family,

I hope this note finds you well and everyone is having a successful and safe harvest season. As we transition into fall routines, like weaning calves and moving cows to stalks I can't help but reflect on how quickly the year is flying by. It's hard to believe I've already got a few months of college behind me! While there have definitely been some challenges adjusting to a new environment, I'm excited to share that things are going well and I'm truly enjoying the journey and new experiences.

Since my last update, our Nebraska junior Angus members have had a busy and exciting fall with shows at the Nebraska State Fair and Aksarben. One of my favorite parts about being involved with the Angus community is how we always show up for one another, lending a hand and cheering each other on. A big congratulations to all who exhibited! You most definitely made the breed proud! Best of luck to everyone as you gear up for the winter show season.

This year, due to scheduling conflicts with 4-H and FFA, we weren't able to hold a State Fair meeting for NeJAA. Instead, we're connecting with members via email to get volunteers signed up for committees ahead of our upcoming Winter Show, which is right around the corner! We encourage all juniors to get involved and help make the event a success.

The Semen Auction is our biggest fundraiser of the year and directly supports our state show and junior programs. We'll also be auctioning off the premium sponsor spot on the back of our t-shirt for the National Angus Show next July. If you're interested in donating to the auction or have any questions, feel free to contact me directly: 308-550-2817 am.crouse@icloud.com

We'll also be reaching out to previous donors soon! Thank you all for your continued support!

I hope to see everyone in December for a fun and meaningful weekend with our Angus family. Until then, take care and best of luck with your fall activities!

Sincerely yours,

Yours truly,

Addison Crouse

2025 NEBRASKA ANGUS TOUR RECAP

NE ANGUS TOUR
Nebraska Angus Association

The Nebraska Angus Association hosted the 2025 Nebraska Angus Tour on September 21–23, covering the western half of the north district, with Valentine serving as headquarters. Angus enthusiasts enjoyed ranch tours, cattle displays, delicious food, door prizes, special interest stops, the annual heifer raffle, and sponsor presentations.

The tour kicked off Sunday morning with the inaugural Nebraska Angus 3-Person Golf Scramble at Frederick Peak Golf Course in Valentine. Fifteen teams participated, supported by several sponsors, with prizes and lunch provided. That evening, the annual meeting and banquet were held at the 4-H building, where Bear Mountain Angus was honored as Producer of the Year. The evening also featured presentations by the current Nebraska Angus Royalty, door prizes, and auctions. A prime rib dinner catered by Niobrara Valley Vineyards was enjoyed.

Monday's tour began with Babcock Angus, whose cattle display was hosted at the Devin Frank place just south of Valentine. Attendees enjoyed cattle displays and a steak breakfast. The next stop was Larsen Vet, an advanced embryo and IVF transfer facility north of Valentine.

Tour goers met the staff, toured the facility, and viewed donor cows.

The Cherry County Fairgrounds followed, featuring cattle displays from Calamus Cattle Company, Mizner Cattle Company, and Outlaw Trail Angus. A roast beef sandwich lunch catered by The Old Mill was served. Mid-afternoon, the tour ventured into the scenic Sandhills south of Cody to Bowlin Cattle, where attendees walked through several pens and enjoyed phenomenal cookies.

Next, the tour visited CSS Farms to explore their seed potato facility, showcasing over 50 varieties of seed potatoes. A fascinating fact shared was that some varieties take years to grow before they're ready for chip production. From there, the group traveled to Miller Angus for a cattle display. While the cattle were impressive, a surprise visit from a young rattlesnake added an unforgettable twist.

The day concluded at Niobrara Valley Vineyards near Nenzel, where Diamond Lazy J Ranch, represented by the entire Nollette family, hosted a cattle display and a fantastic supper at their new vineyard building. Walking among cattle while enjoying supper and a glass of wine, surrounded by the Sandhills, made for a truly memorable experience.

On Tuesday, the tour headed east on Highway 20, beginning at O'Hare Ranch south of Johnstown. Jeremy O'Hare and his father Doug welcomed attendees to their breeding facility and hosted a presentation by University of Missouri researchers on a breeding research program. Insights were shared on breeding timelines and conception rates observed in their heifer program.

Next, the tour visited Hall Ranch north of Bassett, where several heifers were on display. The Hall family expressed gratitude to the Association and previewed their upcoming cow herd sale. South of Bassett, Smith Angus Ranch hosted the lunch stop, featuring cattle displays from both Smith Angus and WR Bar Ranch (Ben & Sherry Andrews). Lunch and fellowship were enjoyed by all.

The final stop was A&B Cattle near Bassett, where attendees viewed numerous pens of cattle and indulged in pie and nitro ice cream. Door prizes were drawn, and the highly anticipated heifer raffle concluded the tour.

The Nebraska Angus Association extends heartfelt thanks to all producers, attendees, volunteers, and sponsors who made this year's tour a success. We look forward to seeing you next year in North Platte for the 2026 Nebraska Angus Tour!

Made in Nebraska!

Now Powder Coated for Added Durability

Fits ATV's and UTV's!

Kathy Danner, NE – "My Safety Zone Calf Catcher is the best thing since sliced bread! No more fighting off protective mamas. And I find it additionally helpful for bringing in a set of twins or a calf that's not nursing well. Also, I can catch ill calves out with their mamas, treat them on site or bring them home for further attention. Good mama cows follow their babies easily."

Nathan Cole, NE – "This has made working with the babies much safer for us. It also gives confidence to anyone that has been ruffed up before or has not been around the mother cows before. I wish we would have purchased the Safety Zone Calf Catcher years ago."

BIRTH ANNOUNCEMENT

LAINIEY MAE MEUSCH

Brad and Aliesha Meusch are excited to announce the arrival of their daughter, Lainey Mae Meusch. She joins proud siblings Etta Kate (5) and Reilly Samuel (2) at home. She was born on August 12, 2025 at 10:25 pm at Butler County Health in David City, Nebraska. She weighed 7 lbs 9 oz and was 20 1/4 inches long. Lainey is the granddaughter of Craig and Laurie Dethlefs of Dethlefs Angus Ranch in Ravenna, NE and Ron and Lori Meusch of Bellwood, NE. Her great-grandparents are Dutch and Marian Dethlefs also of Dethlefs Angus Ranch in Ravenna, NE.

AMERICAN ANGUS ASSN. ANNOUNCES THE TEN NEBRASKA BREEDERS WHO REGISTERED THE MOST ANGUS

The 10 top recorders in Nebraska are: Connealy Angus Ranch, Whitman; TD Angus, North Platte; T K Angus, Wood Lake; Danny Poss, Scotia; Rodney Gray, Harrison; ECO Angus, Lisco; Krebs Ranch, Gordon; Judson & Denise Baldrige, North Platte; Wagonhammer Angus Ranch, Albion; Hoffman Ranch, Thedford. Association members across the nation in 2025 registered 309,926 head of Angus cattle.

Existing Product Receives Conditional Approval for New World Screwworm

*Dectomax-CA1 Injectable receives conditional
FDA approval for prevention and treatment of
New World screwworm in U.S. cattle.*

Zoetis Inc. announced Tuesday, Sept. 30, that Dectomax®-CA1 Injectable is the first and only parasite control product to receive conditional approval from the U.S. Food and Drug Administration for the prevention and treatment of infestations caused by the larvae of *Cochliomyia hominivorax* (myiasis), and prevention of reinfestation for 21 days. This conditional

approval applies to beef cattle, female dairy cattle less than 20 months of age, pregnant beef cows, newborn calves and bulls.

In a news release announcing the approval, Zoetis stated it is committed to supporting livestock producers with scientific solutions for this economically devastating pest. New World screwworm (NWS) poses a continuing threat to livestock health, and the financial ramifications of the disease to the U.S. ag economy are estimated in the billions of dollars.1

"New World screwworm has the potential to bring unprecedented economic and animal health harm to livestock producers," said Mike Lormore, director of cattle and pork technical services at Zoetis. "Our top priority is to support keeping animals healthy and provide timely, efficacious solutions to our customers and partners. With this conditional approval, Dectomax-CA1 Injectable can now be used as part of safe, effective control measures against New World screwworm."

Zoetis has long supported a One Health approach to emerging and transboundary infectious diseases and has a strong track record of quickly developing innovative solutions to provide customers with the right mix of tools for prevention and treatment strategies.

Livestock producers are encouraged to work closely with their herd veterinarian to implement strategic prevention and control measures.

Early detection of NWS and rapid response are critical to protecting the health of animals and the livestock industry. Producers are encouraged to immediately report any suspicious wounds, maggots or infestations to their local accredited veterinarian, state animal health official or USDA's Animal and Plant Health Inspection Service (APHIS). USDA APHIS animal health contacts can be found online here.

In the first half of 2026, producers and veterinarians will begin to see the 250-mL and 500-mL bottles of Dectomax Injectable with a new label for Dectomax-CA1 (doramectin injection). Dectomax-CA1 is the same effective doramectin formulation as Dectomax Injectable. More info @ zoetis.com/NewWorldscrewworm

NEBRASKA PRODUCER OF THE YEAR

BEAR MOUNTAIN ANGUS is a family-owned ranch operation by Brian and Tiffany Stoller along with their daughters, McKinley and Reagan. Reagan and her husband Dennis have both started their careers and help on the ranch when time allows. They are located near Palisade in southwest Nebraska, about 30 miles west of McCook. Seventeen years ago, they made the move to Palisade from Melba, Idaho—and they couldn't have picked a better place to pursue their passion for raising high-quality Angus cattle.

Their Angus story began in 1985 when Brian's parents, Gary and Davy, purchased his brother and himself each an Angus heifer from Thomas Angus in Baker, Oregon. That simple start sparked a lifelong involvement in the Angus breed, from the California Sierra Nevada foothills in the small town of Angels Camp to leadership roles in both State and National Junior Angus programs. In 2001, they acquired Foote Acres Angus in Idaho, a herd with more than 50 years of history. Then, in 2008, they headed east to Nebraska—and quickly discovered just how well this state fits what they love most: raising top-notch Angus cattle.

Both McKinley and Reagan have carried on the tradition, playing active roles in the Nebraska and National Junior Angus programs. They've each served on the Nebraska Junior Angus Board, and Reagan went on to serve on the National Junior Angus Board as well. McKinley has recently served as

THE 2024 PRODUCER OF THE YEAR WINNER REPRESENTATIVES KAMI & PAYTON SCOTT OF KREBS RANCH PRESENTING THE 2025 PRODUCER OF THE YEAR AWARDS TO THE STOLLER FAMILY OF BEAR MOUNTAIN ANGUS.

the Nebraska Angus princess and Reagan served as the states Angus Queen in 2017 & 2018.

Their slogan, "Focusing on Quality with Performance," defines everything they do. They strive to raise cattle that are structurally sound and functional, with muscle, volume, and capacity—balanced in a moderate frame that still delivers scale-tipping weight and performance on the rail. Today, they run about 250 mother cows, all registered or serving as recips, calving roughly 80% in the spring and 20% in the fall. They rely on AI and embryo transfer to ensure their customers have access to cutting-edge genetics, while managing their herd under the same conditions many of their commercial customers face. That way, they know their cattle work in the real world.

Along the way, they've been fortunate to raise several influential bulls that have moved the breed forward, including Freight Train, Owyhee (O-y-he), Justify, Justice, Pilot, and North Star. These successes come from their commitment to building the best Angus cow possible—focusing on multiple functional traits rather than chasing fads or single-trait extremes. At the end of the day, their goal is to keep their customers profitable and sustainable for generations to come.

Brian and Tiffany count their many blessings of great neighbors and friends who lend a hand when needed. Though they currently don't have full-time employees, they're always open to the right fit of joining their team.

At Bear Mountain Angus, they're proud of their past, passionate about the present, and excited for the future of this breed they love.

American Angus Association Seeks 2026 Summer Interns

*Applications for internships are open through
Nov. 12, 2025.*

*By Jessica Hartman, Communications Specialist
September 18, 2025*

The American Angus Association offers a hands-on, tailored learning experience for young cattle enthusiasts. Internships are available in several departments and provide opportunities for growth in a student's chosen field during the 10-week summer program. Students will be immersed in a fast-paced, professional environment and work side-by-side with experts at the forefront of the cattle industry.

"This internship has been so impactful to my career journey," reflects Cassidy Strommen, 2025 Angus Media digital marketing intern. "I was able to sharpen a variety of practical marketing skills and help Angus producers promote their operations while learning from a supportive and encouraging team."

Interns will be based out of St. Joseph, Mo.; some positions offer opportunities to travel. Students who are interested in growth and networking opportunities, have a good attitude and are willing to jump into new and challenging situations for hands-on experience should apply at [angus.org/careers](https://www.angus.org/careers) by Nov. 12, 2025, to be considered.

Angus Media – Marketing: This position will provide valuable experience in email marketing, graphic design, digital advertising, social media content creation and data analytics. The intern will work alongside an experienced team to develop skills and contribute to real cattle producers' marketing

campaigns and success. Applicants should demonstrate an excitement and passion for Association work and the cattle industry. Previous management or oversight of business social media accounts is preferred.

Angus Media – Publications: This writing-intensive opportunity offers the chance to join a multi-media effort, which includes the Angus Journal print publication and the AJ Daily electronic newsletter, as well as the Angus Journal's website and social media presence. The internship can be tailored to the intern's strengths, but many duties can be anticipated, including traveling to industry events. Experience in news and feature writing, editing and photography are strongly suggested.

Communications: From print writing to graphic design, photography and video, the communications intern will gain multi-faceted agricultural communications experience to enhance their marketability as a young professional. The communications intern will help with the promotion and coverage of one of the Association's biggest events, the National Junior Angus Show (NJAS), and will travel with the team to the event. Applicants should have strong writing and design skills and have completed coursework in news and feature writing, editing and design. Experience in photography, video and social media are preferred.

Events & Junior Activities: The intern will assist in planning and executing youth events hosted by the National Junior Angus Association (NJAA), including preparation, correspondence and coordination for shows and events. Applicants should be self-starters, detail-oriented and outgoing with the ability to work well

with others. Livestock and event planning experience is preferred, but not required. Travel to the 2026 National Junior Angus Show (NJAS), Leaders Engaged in Angus Development (LEAD) Conference and other events is expected.

Angus Genetics Inc. (AGI®): Students pursuing their master's degree or Ph.D. in animal breeding and genetics are encouraged to apply for the AGI summer internship. The intern will have the opportunity to work with the world's largest single beef breed genomic databases, conducting research on economically relevant traits in beef cattle. The internship will focus on research that involves data analysis. Candidates should have experience in analyzing animal breeding data sets and genomic data.

If students prefer to spend their summer on the ranch, the Angus Foundation is accepting applications for the Angus/Talon Youth Educational Learning Program internship. The Talon internship program provides college-aged students the unique opportunity to spend their summer on an Angus operation. Interns gain extensive ranching knowledge while enhancing their skills as advocates for the beef industry. Students interested in participating in the program can learn more at <https://www.angus.org/foundation/our-mission/youth/talon-youth>. Deadline is also Nov. 12 through [angus.org/careers](https://www.angus.org/careers).

enVISION Your Cow Herd in 2030...

Vision Barbara 303

This two-year old Ellingson Rangeland daughter, represents our Vision for a cow herd that is built upon real-world function and females that are fertile, docile, productive and impressive to look at.

Functional

Structurally sound, good-footed, easy-keeping females with strong mothering ability and problem-free udders. Time is our most limiting resource and our mother cows should function with no to little assistance.

Docile

Family friendly, gentle, problem-free, no-hassle cattle are a necessity. We all appreciate team members that come to work with a positive attitude, work hard and are easy to get along with. Our cattle shouldn't be any different.

Fertile

The number one profit-driver is a pregnant cow. It's essential that heifers, young and mature cows breed early and are able to maintain that pregnancy while foraging and thriving in their environment.

Productive

Not maximum... but productive. The end-product, whether it's feeder calves, replacement heifers or seedstock genetics should be a profitable outcome that represents your brand well without sacrificing the maternal traits needed to remain profitable.

Vision Angus
